

maxell® **MX 60** POSITION METAL

maxell® **MX 60** POSITION METAL

TAPE SELECTOR	BIAS	EQ	RECORDING TIME
METAL (Type IV)	METAL	70µs	60min. (2 x 30)

- **Pure, dynamic sound**
The employment of newly developed SP (Stabilized Pure) metal particles has improved the S/N ratio by 1dB over the entire frequency range. Along with the increased output, the high-frequency range has been enhanced by 2dB (Compared to MX421).

- **PA (Phase Accuracy) cassette mechanism**
The newly developed PA cassette mechanism assures minimized phase difference and extra-high fidelity, live sound reproduction.

MAXELL FULL WARRANTY We warrant to the user of this product that it is free from defective materials and workmanship. If the product proves unsatisfactory, it will be replaced if returned to the address below.
Manufacturer, distributor and seller shall not be liable for consequential commercial damages.
Maxell Corporation of America
60 Oxford Drive, Moonachie, New Jersey 07074

Maxell Cassette Tape Features

In the cassette Maxell adapts the unique 4-function leader to incorporate the cleaning properties of its original head cleaning tape. The special finish assures continuous cleaning without fear of head wear.

- ① Non-abrasive head cleaning leader tape.
- ② Indicates A or B side ready to play.
- ③ Arrows indicate direction of tape travel.
- ④ 5-second cueing line.

Handling / Storage Instructions

- To prevent the tape from developing trouble in travel, take up any slack in the cassette by using a pencil stub as shown in the illustration.
- Removal of the breakout lug from the cassette (illustration) will render the recorded material unerasable and will protect your valuable recorder to obtain smooth tape travel and high quality recording / playback.
- Store the cassettes in their plastic cases after use. During storage, keep them from heat, humidity, magnetic fields and dust.
